### **NOTICE OF ALLOWANCE**

This is a Notice of Allowance in response to the Amendment filed 12/28/2007.

Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d) to (EPO) 02077495.6, filed 06/21/2002. The certified copy has been filed in parent Application No. 10/518,273, filed: 09/02/2005.

The present US Application is a 371 of PCT/IB03/02387, filed 06/05/2003.

Rejection of Claims 1-6 under 35 U.S.C. 112, second paragraph, with respect to the expression "the times" for failing to properly define relative delay between different time intervals or periods, has been withdrawn in view of the amendment to the claims.

Claims 1-7 were previously pending in the Application.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### ***In the Drawings***

The drawings filed on 8/6/2007 are acceptable subject to correction of the informalities as indicated by the Examiner. The handwritten descriptive notations in Figs. 1 and 6 of the "Replacement Sheets" should be replaced with formal descriptive

notations. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

Applicant is reminded that the Patent and Trademark Office no longer makes drawing changes and that it is applicant's responsibility to ensure that the drawings are corrected in accordance with the Examiner's requirements as set forth in the present Office Action.

***Allowable Subject Matter***

Claims 1-7 are allowed.

**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior arts of record taken alone or in combination fail to teach, anticipate, suggest or render obvious an electronic circuit recited in the independent claim 1, including among other limitations, "a delay element coupled to cause a relative delay between the time intervals after which signals at the inputs of the interface element affect the interface element, and a control circuit for selectively activating the relative delay caused by the delay element prior to sampling an output signal of the interface element".

Similarly, independent claim 7 recites a method of testing an electronic circuit, including among other limitations, "causing a difference between the time intervals after which the test signal source affects different ones of the signals at the inputs, the test control circuit activating said difference in the test mode and keeping the difference deactivated in the normal operating mode".

Consequently, claims 1-7 are allowed over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JAMES C. KERVEROS whose telephone number is (571) 272-3824. The examiner can normally be reached on 9:00 AM TO 5:00 PM.
